Projects

Students Need Application

Technocrats Institute of Technology, Bhopal

Bhopal, M.P.

March 2020 - Aug 2022

- it is a multi-tasking application program. Here, you will get multiple applications in a single frame. There are some useful application programs for students' work, and because all those applications are available here, students do not have to install other separate applications. There are five application programs in our software, as well as one informative website. In our software, there is a login window where users can log in with their ID and password, and if there is a new user, he must sign up to log in.
- Applications in our software are as follows: dictionary, study material, notepad, summary finder, calculator, etc.
- Technical Skills:** Python, MySQL.
- Soft Skills:** Teamwork, Presentation skills, Report writing
